

**Marvel System**  
Where knowledge matters

## **WHY SUSTAINABLE EDUCATION SYSTEM**

We study your frustrated learning attitude and divert the directions of your inner-self in the proactive learning attitude. Proactive learning attitude means that when you are in the classroom you feel you really are and when you are learning you are really learning. You may gain more than you think you can gain. Let's see how we jacket our vision into practice and how we equip you with sustainable education. We at Marvel System defer our visions from others with the following applications to the learning system:

### **1. Predefined and Redefined Fundamentals/Principals**

(Start from the bottom/core line)

**MARVEL ONLY** concentrates its students for providing core level knowledge for the mature conceptual underpinning. This involves computer vocabulary, typing skills, understanding of hardware and software, Human Computer Interface, health care, social issues, computer chronicles computer categories and their applications (from 3G Video Audio Pocket PC to Highly Parallel Supercomputer).

### **2. Value Added and Supplementary Modifications**

(Wide your visions promote your self learning)

**MARVEL ONLY** promotes self-learning skill of its students and boosts their range of thinking (analytical, critical, and innovative). We offer our students an open learning program. This program involves reading of computer magazines, papers, articles, focuses, books, computer crimes, and success and failure stories. We also provide the complete computer based (video, audio and internet) research and development program to our students. This system promotes learning attitude and makes the study more enjoyable more entertaining for the ultimate student.

### **3. Surprise and Bonus Classes for Appraisal**

(Learn From the Performers)

**MARVEL ONLY** arranges surprise and bonus classes for students without any cost and/or hidden charges. We offer our students a system to learn direct from the performers and knowledge and/or experience based persons to evaluate the growing level. For example, lectures from Directors of ISPs, Software Houses, Marketing Companies, Payphone Companies, Mobile Companies, Authorized Dealers, and some overseas self employed successful personalities. The system helps to identify ones skills and knowledge level in the global community.

**Marvel System**  
Where knowledge matters

#### **4. Workshops and Exhibitions for Conceptual Maturity**

(R & D Inside/Outside)

**MARVEL ONLY** provides the open Research and Development Cell for the conceptual maturity for students. We offer weekend workshop-based revision for the correction of logical errors. We arrange periodically knowledge-based exhibitions at the front of our students and visitors for cross-questioning and research participation to promote the knowledge. Knowledge is the key competition left in the international market, as we know.

#### **5. Tree Formation**

(Joining Your Produce in a Well Shaped Chain)

**MARVEL ONLY** maintains database of the students not only of their in campus activities but also concentrates their on-going professional, educational and personal activities with confidential. We manage this cell to provide our student's lifetime learning encouragement, advisory service, and their career management. We are self-assured because we have designed and maintained the platform of knowledge base learners and performers.

#### **6. Creating a Mirror Image**

(Self Assessment/ Evaluation/Awareness)

**MARVEL ONLY** gives an opportunity to its students to grow the skills of learning about the inner self. Self-awareness and self-evaluation is the key for the mature decision-making. A good decision maker has a rich roll in the society and business community. We have developed 100% computerized system of personal evaluation and I.Q tests. With this system our students can perceive very easily their self-matrix of multiple behaviors and can solve routine decision-making problems.

#### **7. Market Zigzags**

(Market Inside/Outside)

**MARVEL ONLY** provides an opportunity to learn about the market change. This study provides the understanding of market trends and their relationships to the other companies (both locally and globally). This system provides the better understanding of change management which is the ultimately helps in career management. The knowledge, which has better understanding of change, will never expire.

Where knowledge matters

## 8. Revitalization

(Micro to Macro and Macro to Micro)

**MARVEL ONLY** gives an opportunity to build the skill to select the role model and follow him to the success. We teach our students how a mature personality makes the difference in society. How the personality becomes so ideal and so eye catching. How the personality travels from micro to macro (success) and how comes down from macro to micro (failure). This study provides the complete guideline for success and failure (recovery) management.

## 9. Knowledge Based Platform

(One Teacher One Computer One Student)

**MARVEL ONLY** provides the atmosphere of one teacher one computer and one student. This system provides all type of shy, less-confident, frustrated, and immature students an opportunity to express their feelings and ask their questions without any tension and hesitations. We try to see the sights of mental hidden qualities of our students and make them knowledgeable. Learning is just an attitude, as we believe. Marvel Academic System provides the real time learning system, which is 100% sustainable and never expires. It is entertaining, full of zip and young. We have provided you the system of non-stop learning and non-stop performing with full backend control and management.

We invite you to learn real-world (sustainable) education and become marvelous performer who has the success in his/her hand.
